

IPS Supported Employment Research Update

Bob Drake
IPS Employment Center
2019

27 Randomized Controlled Trials IPS for People with SMI

- RCTs are gold standard in social science research

Competitive Employment Rates in 26 RCTs

Employment Outcomes

IPS is superior for employment outcomes: obtaining employment, time employed, hours of work, and wages earned

Most people with serious mental illness work about 20 hours per week

No evidence that substantial numbers leave disability rolls

New Populations

- Early Psychosis
- Transition-age Youth
- Posttraumatic Stress Disorders
- Welfare Recipients (TANF)
- Common Mental Disorders
- Substance Use Disorders
- Spinal Cord Injuries
- Autism Spectrum Disorders
- Intellectual/Developmental Disabilities

New Populations - 2

- Pain Syndromes
- Poverty
- Social Security Disability Denials
- Justice System
- Opioid Use Disorder
- New Immigrants

New Settings
